### 3 Summary of significant accounting policies

These condensed interim consolidated financial statements have been prepared using the significant accounting policies consistent with those applied in the Company's December 31, 2019 consolidated financial statements, except as described below relating to the amendments to IFRS 3, IAS 1 and IAS 8 which became effective January 1, 2020.

Definition of a Business – Amendments to IFRS 3: The amended definition of a business requires an acquisition to include an input and a substantive process that together significantly contribute to the ability to create outputs. The definition of the term 'outputs' is amended to focus on goods and services provided to customers, generating investment income and other income, and it excludes returns in the form of lower costs and other economic benefits.

Definition of Material – Amendments to IAS 1 and IAS 8: The IASB has made amendments to IAS 1, Presentation of Financial Statements ("IAS 1") and IAS 8, Accounting Policies, Changes in Accounting Estimates and Errors to use a consistent definition of materiality throughout IFRS and the Conceptual Framework for Financial Reporting, and clarify when information is material and incorporate some of the guidance in IAS 1 about immaterial information.

The adoption of the amendments to these standards did not have a material impact on the interim consolidated financial statements in the current or comparative periods. The Company was not required to make retrospective adjustments as a result of adopting these standards.

The termination date of this arrangement is August 31, 2021. The cost of this derivative financial instrument was \$155,000. The Company has not designated this interest rate cap agreement as a cash flow hedge for accounting purposes. The fair value of this derivative as determined by the financial institution as at June 30, 2020 represented an asset to the Company of \$43.

In addition, effective July 31, 2019, the Company entered into a derivative financial instrument, an interest rate collar contract (further amended in November 2019 and February 2020), with a financial institution in order to mitigate interest rate risk under the variable interest rate Term Loans. This derivative financial instrument has an underlying notional amount of 100% of the face value of Term Loan B (\$266,000,000 as at July 31, 2019) and a termination date of July 31, 2022 with (i) a cap rate of 3.00% (LIBOR) per annum, and (ii) a floor rate of 1.1475% (LIBOR) per annum. There was no upfront cost of this derivative financial instrument. The Company has not designated this interest rate cap agreement as a cash flow hedge for accounting purposes. The fair value of this derivative as determined by the Company as at June 30, 2020 represented a liability to the Company of \$5,190,000.

Changes in the fair value of these derivatives are recognized in the condensed interim consolidated statements of net income (loss) and comprehensive income (loss).

The Amended May 2019 Credit Agreement provides for the following (capitalized terms used below in this note and not defined elsewhere in these notes have the respective meanings given to them in the Amended May 2019 Credit Agreement):

- Interest

The interest rates payable on the Amended May 2019 Loans are as follows: (i) each Eurodollar Rate Loan shall bear interest on the outstanding principal amount at one-month LIBOR plus Applicable Rate; and (ii) each Base Rate Loan shall bear interest on the outstanding principal amount at the Base Rate (the highest of (a) the Federal Funds Rate plus 0.5%, (b) the prime rate and (c) Eurodollar Rate plus 1.0%) plus Applicable Rate. As part of the amendments on June 2, 2020, an additional paid-in-kind interest accrues on the outstanding Term B Loans from time to time, which interest rate shall be (i) 2.00% per annum from June 2, 2020 to March 31, 2021, and (ii) thereafter the applicable percentage per annum will be determined by reference to the leverage ratio thresholds in the Amended May 2019 Credit Agreement. All advances under the Amended May 2019 Loans are currently classified as Eurodollar Rate Loans. The annualized effective interest rate under the Amended May 2019 Credit Agreement as at June 30, 2020 was approximately 7.3% per annum (June 30, 2019 – 7.7%). With respect to interest rate sensitivity as at June 30, 2020, a 1% increase in variable interest rates would have increased interest expense for the six-month period ended June 30, 2020 by approximately \$0.3 million (2019 – \$0.3 million).

## 12 Commitments and contingencies

The Company is party to various legal proceedings, claims, and regulatory, tax or government inquiries and investigations that arise in the ordinary course of business. With respect to these matters, the management evaluates the developments on a regular basis and accrues a liability when it believes a loss is probable and the amount can be reasonably estimated. We believe that the amount or any estimable range of reasonably possible or probable loss will not, either individually or in the aggregate, have a material adverse effect on our business and consolidated financial statements. However, the outcome of these matters is inherently uncertain. Therefore, if one or more of these matters were resolved against the Company for amounts in excess of management's expectations, our results of operations and financial condition, including in a particular reporting period in which any such outcome becomes probable and estimable, could be materially adversely affected.

Commencing during Q1 2020 and continuing through Q2 2020 and beyond, a pandemic relating to a novel coronavirus known as COVID-19 occurred causing significant financial market disruption and social dislocation. The pandemic is dynamic with various cities, counties, states and countries around the world responding in different ways to address and contain the outbreak, including the declaration of a global pandemic by the World Health Organization, a National State of Emergency in the United States and state and local executive orders and ordinances forcing the closure of non essential businesses and persons not employed in or using essential services to "stay at home" or "shelter in place". At this stage, we have no certainty as to how long the pandemic, or a more limited epidemic, will last, what regions will be most affected or to what extent containment measures will be applied.

Imaging centers are healthcare facilities and as such are generally considered an essential service and expected to continue to operate during any epidemic or pandemic. However, there is potential that actions taken by government, or individual actions, in response to containment or avoidance of this coronavirus could impact a patient's ability or decision to seek imaging services at a given time which could have a significant impact on volume at our imaging centers leading to temporary or prolonged staff layoffs, reduced hours, closures and other cost containment efforts. Further, there is potential that certain services which are not urgent and can be deferred without significant harm to a patient's health may be delayed, either by the Company in response to local laws or good public health practice or voluntarily by the patient. In addition, there is potential that the outbreak of the coronavirus could impact supply chains, including the Company's supply of

personal protective equipment, and lead to personnel shortages, each of which could impact the ability of the Company to safely perform imaging services. It is also possible that social distancing efforts and sanitization and decontamination procedures could cause delays in the performance of imaging services. Depending on the severity and duration of the COVID-19 pandemic, there is potential for the Company to incur incremental credit losses beyond what is currently expected and potential future reduction in revenue and income and asset impairments.

### 13 Segmented financial information

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Chief Executive Officer. The Company has one reportable segment, which is outpatient diagnostic imaging services.

### 14 Risk management arising from financial instruments

The carrying value of cash, accounts receivable, accounts payable and accrued liabilities and leases (current portion) approximates their fair value given their short-term nature.

The carrying value of the non-current portion of leases approximates their fair value given the difference between the discount rates used to recognize the liabilities in the condensed interim consolidated balance sheets and the normalized expected market rates of interest is insignificant. The estimated fair values of other non-current liabilities were as follows:

	June 30, 2020 \$	December 31, 2019 \$
Amended May 2019 loans payable	372,896,500	360,596,500
Wesley Chapel Loan payable	1,311,200	1,483,830
Subordinated notes – earn-out	192,387	184,485
ADG Acquisition – earn-out	6,206,577	14,834,067
Derivative financial instruments	<u>5,189,957</u>	<u>951,105</u>
	<u>385,796,621</u>	<u>378,049,987</u>

Financial instruments recorded at fair value on the condensed interim consolidated balance sheets are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability; either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Amended May 2019 Loans, Wesley Chapel Loan, Subordinated Notes – Earn-out and ADG Acquisition – Earn-out were measured at fair value under the Level 3 category on recognition. The Subordinated Notes –
