

Akumin AXIS® 1.5T MRI

High-Performance Imaging, Reimagined for Flexibility

Rapidly Expand Patient Access

Replace your mobile MRI with a fully relocatable clinic that can double capacity within weeks of delivery

Cost Efficiency

Operates as an expense, not capital investment, quickly becoming cash-flow positive when patient demand is strong

Relocatable Design

Non-permanent and fully relocatable, enabling flexible deployment as market needs or volumes shift

New Capabilities

Add Alzheimer's program or other advanced imaging to expand services and strengthen market differentiation

Seamless Installation

Delivered pre-commissioned for fast setup on existing pads, achieving full operational readiness within weeks

Enhanced Patient and Staff Experience

High ceilings, quiet AI-enabled MRI, and an ergonomic layout create a modern, efficient, and pleasant care environment
